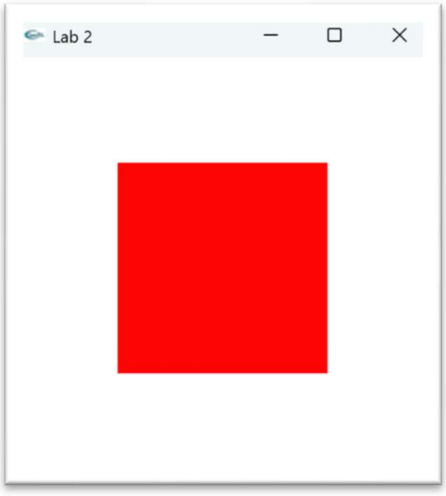
Lab 2

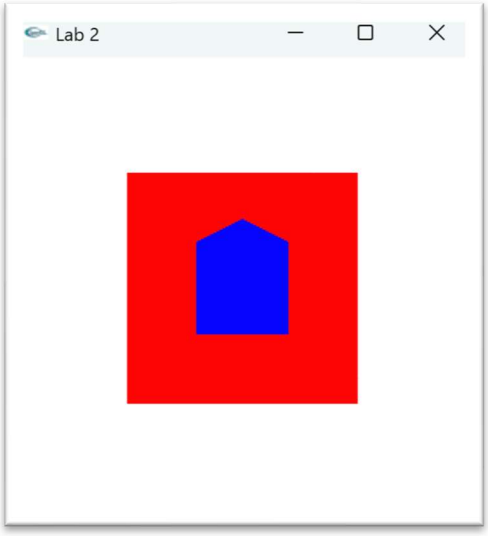
Exercise 1:

Write a C++ program to draw the figure shown in the window:

1. Change the window size to (300 * 300).
2. Draw a red square in the middle.



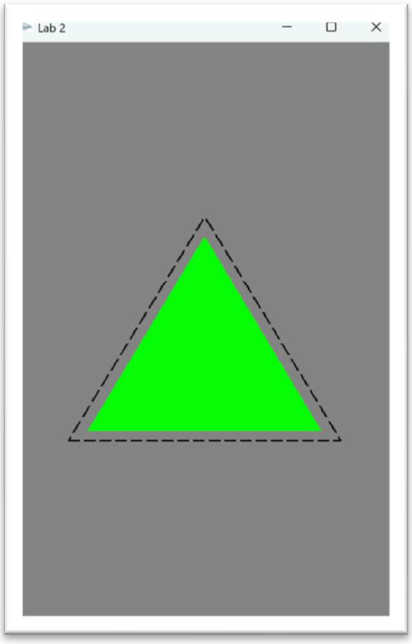
3. Draw a blue polygon in the middle of the square as shown.



Exercise 2:

Write a C++ program to draw the figure shown in the right window:

1. Change the window size to (400 * 600).
2. Coordinates: `Xmin = -100 , Xmax = 100 , Ymin=0 , Ymax=300`
3. Use any color
4. Use any style



Exercise 2:

Write a C++ program to draw the figure shown in the right window:

1. Change the window size to (500 * 300).
2. Coordinates: `Xmin = -100 , Xmax = 100 , Ymin=0 , Ymax=300`
3. Use any color
4. Use any style
   Hint : use a quad as a background covering all the window.
